@ 2:45 p.m. in the Auditorium  
Dance Auditions Sept. 2nd 2010  
@ 6:00 a.m. on the Stage

**Students must attend Singing, Acting  
& Dance Auditions to be considered for parts.**

The Musical is a wonderful opportunity for you to expand your talents in the performing arts. A musical is unique because it unites the art forms of acting, singing, dancing, and music into one magic performance. Participating in the musical builds character, confidence, and appreciation for the arts, and may lead you to participate in any of our strong performing programs. Interested students should begin by preparing 16 measures of a song that showcases your vocal ability, and performing a song to show your abilities to play a character. Students will need their own accompaniment, either piano or minus track. In dance we are looking for coordination, agility and the ability to find rhythm and emotion.

For musicians we look for those who can commit themselves to learning and practicing the music, while finding enjoyment in the mood and meaning behind the lyrics and notes. Students interested in learning more about the characters, songs, and script may look at materials online at:
